

Governor Ted Schwinden
OF The State OF Montana;

Sir;

I

(b) (6)

The reason for this letter was not to impress you with the fact that I was from (b) (6), but rather to report to you a matter that I believe is of great importance to every one in Montana. Last year I made a trip from Avery, Idaho to St regis Mont. and I was absolutely appalled at the manner in which the people who removed the Millwaukie Rail Road tracks, and supposedly cleaned up the right of-way. Rotted ties, old twisted culverts, telephone poles, and garbage of all kinds is scattered on both sides of the right-of way, and in the St Regis River. The N.P. Railroad was cleared about the same time, and it was left spotless. Why should the Millwaukie not be required to clean up there mess and not leave it to the Tax payers, or some Government body, I have spoke to your environmental Director, and he assured me he would do what ever he could, and I think he will, but I thought you might lend a little weight.

I know that you have problems that are much more important than this might be, but if you can help the situation, I for one wish to thank you.

USEPA SF

1420397

Yours Sincerely

(b) (6)
